

KALINA

industries s.r.o.

- **AUTOMOTIVE GASKETS**
- **INDUSTRIAL GASKETS**
- **SEALING RINGS**
- **DISTANCE WASHERS**
- **VINTAGE CAR PARTS**
- **CUSTOM-MADE COMPONENTS**

■ AUTOMOTIVE GASKETS

Cars
Trucks
Tractors
Special vehicles
Motorcycles
Automotive aggregates
Cylinder head gaskets
Suction and exhaust system gaskets

Oilpan and valve gear cover gaskets
Fuel and cooling system gaskets
Gaskets for engine timing, covers and gearboxes
Cylinder liner spacing rings
Frost plugs
Hydraulic system gaskets
Gaskets for automotive aggregates

■ MOTORCYCLE AND VINTAGE CAR PARTS

Cylinder head gaskets – atypical thickness, bore modifications sandwich gaskets.
Exhaust system gaskets.
Other flat engine gaskets from asbestos-free, materials, plastic, rubber, paper, rubber-cork, leather, felt and graphite.
Aluminum and copper sealing rings, spacing rings and frost plugs.

Custom gasket sets.
Metal parts, molds, strainers, filters.
Extrusion production.
Manufacturing based on the drawings, samples provided, electronic archiving.
Express manufacturing of flat gaskets in 24 hours.
Delivery service.

■ INDUSTRIAL GASKETS AND SEALING MATERIALS

Asbestos-free gaskets
Graphite gaskets
Rubber gaskets
Sponge and porous sealing elements
Plastic gaskets
Metal gaskets
Paper gaskets
Rubber-cork gaskets

Felt sealing elements
Electro-insulating elements
Heat-insulating elements
Noise insulating elements
Leather gaskets
Flat membranes
Products with adhesive layer

■ DISTANCE WASHERS

standard dimensions under ČSN and DIN norms or non-standard dimensions

Aluminium
Copper
Mild steel
Spring steel

Brass
Bronze
Lead
Stainless steel

■ SEALING RINGS AND WASHERS

standard dimensions under ČSN and DIN norms or non-standard dimensions

Metal – aluminium, copper

Non-metallic

Fiber
Asbestos-free Reinz rings
Felt rings
Graphite rings

Rubber – elastomeric
Plastic rings
Plumbing and heat distribution

Ring sets

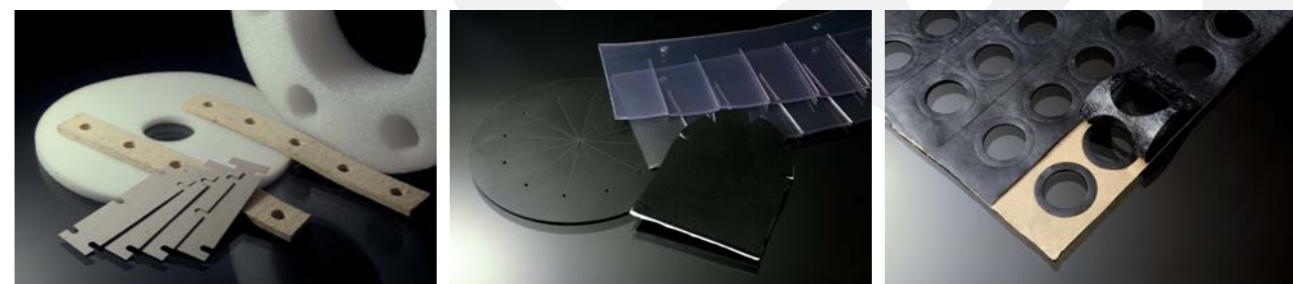

Metalplastic rings

■ CUSTOM PARTS MANUFACTURING

Manufacturing upon customers' request
Based on drawing or sample provided
From individual pieces up to large batches
Tools manufacturing

Pressing with excentric presses
Cutting with cutting machines
Plotter cutting
Cutting and carving

KALINA industries s.r.o.

manufacturer and supplier of sealing elements and industrial parts from Zlín

The company was established in 1990 by Jan Kalina. Since 2008 it has carried out its business in the newly built premises in the Zlín – východ industrial zone. These days the company has about 40 employees and the manufacturing program has been extended significantly.

Besides all sorts of automotive gaskets, the company produces flat industrial gaskets and sealing elements. Another field of activities involves production of aluminium, copper and fiber sealing rings, metaloplastic rings, and spacing rings. Considerable share of production is dedicated to manufacturing of pressed, cut and carved industrial components. Tool works and custom workshop are also available, allowing for development of new products for customers from all industrial areas.

The quality of products from placing the order to expedition of the finished product is guaranteed through sophisticated quality management system under the ISO 9000 norm, for which the company has been certified in 1998. Wide manufacturing and business range of the company provides for satisfying even the most demanding customers.

Strengths of the KALINA company:

- quick delivery (manufacturing while you wait) – time and money savings
- quality (only high quality materials used)
- manufacturing of both individual items (custom manufacturing) and large batches
- archiving of the drawings provided, thus enabling for quick repeated manufacturing
